

Innosphere

IT SERVICES PRICE LIST

Innosphere - your instant IT assistant

innosphere.io

DEVICE OPTIMIZATION SERVICES

Cleanup and optimization of devices

Computers/laptops €250 per device

Smartphones and tablets €100 per device

Removal of unnecessary files, applications, and malware €150 per device

System performance enhancement

Diagnostics and optimisation €200 per device

OPERATING SYSTEM AND SOFTWARE UPDATES

Operating systems and software applications updates €100 per device

Installation of security patches and feature updates €80 per installation and set up

ANTIVIRUS AND MALWARE PROTECTION

Installation and configuration of antivirus and anti-malware software €100 per installation and set up

Antivirus software update €80 per installation and set up

DATA BACKUP AND RECOVERY

Implementation of data backup solutions to prevent data loss

Analysis, solution choice and implementation €300 per case

Data recovery due to hardware failures or data corruption €250 per case

PASSWORD MANAGEMENT

Secure password creation and management

Password analysis, recovery, and creation of secure combinations €100 per case

Password management solutions €80 per case

EMAIL AND COMMUNICATION SECURITY

Phishing and spam preventive solutions €150 per email

Secure email encryption for sensitive information €150 per email

SECURE ONLINE TRANSACTIONS

Online shopping and banking activity analysis €150 per case

Solutions for the protection of financial information during online transactions €150 per case

PARENTAL CONTROL SOFTWARE

Parental control solutions for managing and monitoring children's online activities

Analysis of activity and children's online experience **€120** per case

Creating a safe online environment for families **€300** per case

PRIVATE NETWORK MANAGEMENT

Setup and configuration of private network security **€350** per network

Implementation of firewalls, network segmentation, and strong Wi-Fi encryption **€550** per network

HOME AUTOMATION INTEGRATION

Assistance with integrating and securing smart home devices **€100** per device

Security check and setup of devices like smart thermostats and security cameras **€100** per device

SOFTWARE TRAINING

Expert training on various software tools and applications **€250** per hour

Maximising the use of productivity suites, graphic design software, and video conferencing applications

Client needs analysis and usage optimization **€250** per case

TECH SUPPORT AND TROUBLESHOOTING

Ongoing assistance with technical issues related to hardware and software From **€500**
per month

Remote assistance for quick issue resolution **€80** per case

E-WASTE DISPOSAL AND RECYCLING INFORMATION

Consulting on responsible disposal and recycling of electronic waste **€80** per hour

DATA PRIVACY EDUCATION

Education on data privacy and online safety **€250** per hour

Consulting on protecting personal information (specific user case) **€250** per hour

HOME NETWORK SETUP AND SECURITY

Setting up and securing internet connection **€180** per case

SOFTWARE AND APP RECOMMENDATIONS

Guidance in selecting and installing software and apps for personal productivity, entertainment, and security From **€80**
per case

TECHNOLOGY TROUBLESHOOTING AND SUPPORT

Remote or on-site technical support for resolving technology issues €250 per hour

DIGITAL PRIVACY AND IDENTITY PROTECTION

User activity analysis and data and protection strategy €250 per case

Education on protecting online privacy and identity €250 per hour

HOME OFFICE SETUP

Setting up a functional home office, including configuring remote work tools and software From €500 per 1 workplace

PERSONAL WEBSITE OR BLOG DEVELOPMENT

Personal website From €1500 per website

Personal blogs From €1000 per blog

NETWORK SECURITY

Firewall Setup and Management

Complex protection of networks from online threats.

From **€450** per setup

Intrusion Detection Systems

Detection and prevention of unauthorised access to networks.

From **€540** per system

Data Encryption

Complex protection of sensitive information with effective encryption.

From **€450** per data set

Security Audits

Assessment of the vulnerabilities in your network to enhance protection

From **€500** per audit

DATA MANAGEMENT

Data Backup and Recovery

Ensuring continuity and recovery of important data in case of loss.

From **€250** per backup

Data Storage Solutions

Data storage selection and optimisation for business use.

From **€200** per solution

Data Analysis and Reporting

Expert data analysis for valuable insights and performance optimisation

From **€350** per analysis

Data Compliance

Keeping your work in line with data protection regulations.

From **€540** per compliance assessment

CLOUD SOLUTIONS

Cloud Migration

Seamless transition of data and workflows to cloud-based systems. From **€1000** per migration

Cloud Security

Complex protection of the cloud environment from online threats. From **€780** per security setup

Hybrid Cloud Integration

Setting up a combination of on-premises and cloud resources for maximum efficiency. From **€1200** per integration

Cloud Consulting

Expert consultation for informed decisions about cloud technology. **€250** per consultation

IT STRATEGY

Strategic Planning

Alignment of an IT strategy with business objectives. From **€400** per plan

Technology Roadmaps

Charting the future of your technology with a clear roadmap. From **€450** per roadmap

Cost Optimization

Maximisation of the value of your IT investments, effective reduction of expenses. From **€380** per optimisation

Digital Transformation

Expert analysis of software, networks and devices, and transformation plan. From **€750** per transformation

IT SUPPORT

Help Desk Services

Prompt technical support for your project.

From **€250**/month per user

Remote Support

Expert assistant to resolve issues from anywhere.

From **€180**/hour.

On-Site Support

Expert assistance when you need it at your office.

From **€250**/hour

24/7 Monitoring

Continuous system performance support with round-the-clock monitoring.

From **€420**/month

IT INFRASTRUCTURE

Server Management

Optimisation of server configurations and maintenance.

From **€580** per server

Hardware and Software Upgrades

Keeping systems up-to-date for optimal performance.

From **€450** per upgrade

Network Optimization

Improvement of network performance and reliability.

From **€600** per
network upgrade

Virtualization

Maximisation of resource utilisation and scalability.

From **€550** per
virtualization.

CYBERSECURITY

Phishing Awareness Training

Education on the recognition of online threats.

From **€650** per training session

Vulnerability Assessments

Identification and addressing security weaknesses in your systems.

From **€600** per assessment

Incident Response

Implementation of quick and effective responses to security incidents.

€350 per response

Security Awareness Programs

Fostering a culture of security in your business environment.

From **€380** per program

SOFTWARE DEVELOPMENT

Custom Application Development

Building software tailored to your project's unique needs and processes.

From **€1890** per
development

Mobile App Development

Development of a custom mobile app to maximise target audience engagement.

From **€2700** per
development

Legacy System Modernization

Update and enhancement of outdated systems for efficiency.

From **€650**
per case

DATA ANALYTICS

Data Mining

Discovering valuable insights hidden in your data.

From **€500** per data set

Predictive Analytics

Making data-driven forecasts for your business needs.

From **€550** per analysis

Business Intelligence Reporting

Visualisation for better understanding of your data for informed decision-making.

From **€480** per report

Data Integration

Bringing together data from various sources for comprehensive analysis.

From **€450** per integration

IT CONSULTING

Technology Assessment

Evaluation of current IT infrastructure and identify areas for improvement.

From **€650** per assessment

IT Roadmap

Development of a tailored plan to achieve business IT goals and objectives.

From **€580** per roadmap

IT Budgeting

Developing a cost-effective strategy that aligns with your project's needs.

From **€500** per case

Vendor Selection

Assistance in making informed decisions when choosing IT solutions and providers.

From **€450** per case

WEB DEVELOPMENT

E-commerce Development

Development of online stores with secure payment gateways and a streamlined shopping experience.

From **€3400**
per development

Custom CMS Development

Development of a content management system tailored to your specific content and publishing needs.

From **€4850**
per development

Progressive Web App (PWA) Development

Development of web applications that offer a native app-like experience on web browsers.

From **€1900**
per development

Web Portal Development

Development of web portals for intranets, extranets, and customer portals for personal or business use.

From **€2250**
per development

Web Maintenance and Support

Ongoing maintenance, updates, and technical support for websites and web applications.

From **€550**
per month

Website Security and Performance Optimization

Enhancing website security and optimising performance for faster loading times for personal or business use.

From **€700**
per optimization

Web Accessibility Services

Ensuring websites compliance with accessibility standards, making them usable for all users, including those with disabilities for personal or business use.

From **€480**
per service

UX/UI SERVICES

User Research and Usability Testing

User research and usability testing to gather insights for better user experiences.

From **€750**
per research session

Information Architecture Design

Planning the structure and organisation of content and information within digital products.

From **€850**
per design

Wireframing and Prototyping

Development of wireframes and interactive prototypes to visualise user interfaces.

From **€1350**
per prototype

User Interface Design

Design visually appealing, intuitive user interfaces for web and mobile applications.

From **€1650**
per design

User Experience Design

Creating seamless, user-centric experiences through user journeys and interaction design.

From **€1800**
per design

Responsive Design

Developing adaptive designs for websites and apps to fit different screen sizes and devices for a consistent user experience.

From **€1680**
per design

Visual Design

Crafting compelling visual elements, including graphics, illustrations, and icons.

From **€500**
per element

MOBILE APPS

App Monetization Strategy

Developing strategies to monetize mobile apps through ads, in-app purchases, or subscriptions.

From **€750**
per strategy

Cross-Platform App Development

Creation of apps on multiple platforms, such as iOS, Android, and Windows.

From **€2950**
per development

App Maintenance and Updates

Ongoing support and maintenance to keep mobile apps current.

From **€600**
per update

Wearable App Development

Design and development of apps for wearable devices like smartwatches and fitness trackers.

From **€2480**
per development

App Store Optimization

Optimising app store listings to improve visibility and downloads.

From **€650**
per optimization

Mobile App Security

Implementation of robust security measures to protect user data and app functionality.

From **€850**
per security setup

INTERNET OF THINGS (IOT)

IoT Solution Design

Planning and design of IoT systems, including hardware, software, and connectivity components.

From **€3450**
per design

IoT Data Analytics

Analysis and insights from IoT-generated data to make informed decisions

From **€2200**
per analysis

IoT Integration Services

Connection and integration of IoT devices with existing systems and platforms.

From **€1280**
per integration

IoT Security Consulting

Ensuring the security and privacy of IoT data and devices.

From **€650**
per consultation

SALESFORCE

Salesforce Customization

Customisation of Salesforce to meet business requirements.

From **€950**
per customization

Salesforce Integration

Integration of Salesforce with other systems, such as ERP and marketing automation.

€600 per integration

Salesforce Consulting

Expert guidance on optimising your Salesforce implementation.

From **€350**
per consultation

Salesforce Lightning Development

Development and customisation of applications using Salesforce Lightning components.

From **€1280**
per development

Salesforce Data Migration

Migration of data to and from Salesforce while maintaining data integrity.

From **€1220**
per migration

QA & TESTING

Performance Testing

Assessment of the performance and scalability of software applications under various conditions.

From **€750**
per test

Security Testing

Identification of vulnerabilities and weaknesses in software to protect against cyber threats.

From **€750**
per test

Automated Testing

Implementation of automated testing frameworks for efficient and repeatable testing.

From **€600**
per test

Load and Stress Testing

Evaluation of software under heavy loads to ensure stability and reliability.

From **€650**
per test

Mobile App Testing

Performing testing specifically tailored to mobile applications.

From **€750**
per test

Agile Testing Services

Integration of testing into agile development processes for faster feedback and improvements.

From **€600**
per service
